What can we do for you?

Explore our industry and topic-specific offerings

Are you pressed for time and looking for a grab-and-go awareness solution? Or are you looking to build a corporate culture of security and/or privacy awareness with a world-class awareness initiative? Maybe it's something in between?

MediaPRO's awareness program packages are designed to meet your needs with a combination of assessment, phishing, training, and reinforcement, no matter your industry, budget, maturity level, or experience.

Topic-Specific Offerings:

We've built eight packages designed to fit a variety of organizational needs. Find out more about each package:

SECURITY AWARENESS

Our Security Awareness package prepares you to change your employee behavior on the most pressing cybersecurity risks.

PRIVACY AWARENESS

This Privacy Awareness package enables your employees to protect personal information at a price suitable to a variety of organizational needs.

SECURITY & PRIVACY AWARENESS

This combined package covers the most pressing privacy and security risks, with a range of content on malware, phishing, secure data-handling procedures, and more.

GDPR PRIVACY AWARENESS

Our GDPR-aligned privacy awareness package ensures your employees meet the GDPR requirements for the collection, processing, and transfer of EU resident data.

RETAIL CYBERSECURITY

Arm your employees with the knowledge they need to keep your customers' data secure with comprehensive PCI training and cybersecurity best practices.

HIPAA AND HEALTHCARE CYBERSECURITY

This package teaches the importance of HIPAA protections and cybersecurity principles within the healthcare industry, including the dangers of ransomware and phishing attempts.

FINANCE SECURITY AWARENESS

Empower employees with the knowledge they need to prevent cyberattacks with expertly-produced content based on proven adult learning principles.

EDUCATION SECURITY AWARENESS

Using our education-focused awareness package, equip your faculty and staff with the vital know-how to abide by regulations and prevent cybercriminal exploits and protect student data.
