## What's an Awareness Program?

An Awareness Program is an ongoing effort to communicate business risks and desired behaviors to employees within an organization. The goal is to create a risk-aware culture where all employees act to protect the information that flows through the organization. MediaPRO provides you with all the tools to run a comprehensive awareness program, with behavioral risk assessments, phishing simulation, training, and reinforcement—all wrapped up in easy-to-deliver program packages suited for your needs.

## Implementation Options

**Configure:** Using our unique CourseBuilder, you can easily arrange content, brand your course, and add company contact information and links to your internal policies and procedures. The result? You've got a fully operational course in record time.

**Customize:** Need to change things up? MediaPRO can easily customize any content to meet your specific needs. You might: add an executive message, modify or delete content, or create new pages. Our customization process is proven, transparent, and the easiest in the industry.

**Deliver:** Want flawless delivery? MediaPRO's courseware is SCORM

and AICC compliant, which means that it can be easily integrated into your organization's Learning Management System (LMS). Don't have an LMS? MediaPRO also provides an affordable, cloud-based LMS.
