

LearningLAB

MediaPRO's LearningLAB

Risk Awareness Within Reach

Fortify your workforce with the ability to combat cyber threats and data breaches using LearningLAB, a comprehensive, configurable awareness platform that's easy enough for anyone to administer, yet powerful enough for the most risk-aware organizations in the world.

See it in Action!

Schedule your personalized look at LearningLAB by visiting www.mediapro.com/request-demo

A complete solution for today and tomorrow

Get everything you need to engage employees with award-winning content, measure results, and continuously drive down risk.

- Unified, cloud-based platform with nothing to deploy or manage
- Simple drag-and-drop interface makes for easy configuration
- Designed to fit your organization's specific needs and budget

Focus on protection, not the platform

Start protecting your company in minutes. In three easy steps, you'll have your custom-branded awareness program ready to roll.

- Automated assessments, content delivery, and reinforcement
- Built-in recommended training cadence
- Integrates with existing company directories

The industry's best content

Engagement drives awareness. LearningLAB gets employees excited to learn, using award-winning MediaPRO awareness content.

- Built on 25 years of adult education expertise
- Engaging course content, videos, animations, and more
- Content is reviewed and updated throughout the year

About MediaPRO

MediaPRO is nationally recognized for producing award-winning online training that reduces risk and improves employee behaviors. Combine this training with our phishing, reinforcement, and assessment tools, and you've got an awareness program that meets your compliance requirements and safeguards business assets. MediaPRO's products are used by the most risk-aware companies in the world, have won more than 100 e-Learning awards, and have earned us a place as a Leader in Gartner's Magic Quadrant for Security Awareness Computer-Based Training.
